

# TOKYO No.9 DATA CENTER

Excellent access from the heart of Tokyo,  
comfortable and convenient data center with large offices, ample amenities

**Nexcenter**

**24/7, We will support your business**

We provide office space that can be used for system monitoring centers and call centers.

**Great amenities :** cafeteria, fitness room, and, private break room.

## Access

About 20 minutes by car from Tokyo Station.  
Can be accessed less than 1 hour from both Narita and Haneda Airport.

## Large Office Space

Large office space that can be used for a wide range of applications, such as BCP office, system monitoring center, call center, etc. By using a backup power supply\* equipped with an power generators, business continuity is possible in case of emergency. We also offer "BCP desk" available from 1 seat.

\* If you need uninterruptible power supply compliance, please consult us.

## Full Security

Multi-level security.

- Security guards are on site 24/7
- Pre registration required via Web Entry System
- Admission check, tour in the building
- Gate opening by IC card authentication
- Security gate to prevent tailgating
- IC card + Biometric authentication
- Each gate is monitored with CCTV cameras

## Great Amenities

In the building, providing a cafeteria serving hot meals, fitness room, customer lounge, ATM, café corner, vending machines and, private break rooms.

## Carrier Diversity

Communications routes are laid from two directions, realizing carrier diversity by redundant use of multiple carriers. As NTT Com's transmission equipment is installed, customers can use NTT Com's high-quality network services.

## Stable Power Supply

Electricity is sourced from 2 routes, while UPS and generators supply stable uninterruptible power supply 24/7.

## General Specifications

### ● Building

Construction completion	November, 1989
Floor area	31,000 sq.m
Server room space	1,400 sq.m (NTT Com's space)
Office room space	6,000 sq.m
Main building	7 stories, Penthouse: 2 stories
Structure	Reinforced concrete anti-seismic structure
Floor load	1,000kg/sq.m
Raised floor	Floor height: 500mm
Loading bay	One 4 t trucks H=approx. 3.5m
Elevator	W2,600mm x D1,900mm x H2,700mm Capacity: up to 2,500kg
Parking space	Available
Building/ room access	Facility access: 24 hrs/ day Pre registration required via Web Entry System Speedy smart entry after photo ID confirmation, card key and rack keys are provided Operators are available 24 hrs/ day

### ● Facilities

Power reception	Extra-high voltage, Active and stand-by system
	Power reception voltage: 22,000V Inspection: Once a year (No shut down needed)
Generators	Gas turbine engines
	Operation without refueling: 48 hrs (Including external storage fuel) Driving test: Once a month
UPS	N+1 configuration High capacity battery equipment
Power supply type	Single-phase 100V and 200V Three-phase 200V
Air conditioning	Water-cooling 24 hrs/ day Energy saving air conditioning system using thermal storage cold water tank
Fire detection and suppression	Nitrogen gas fire suppression system Early Warning Smoke Detection System
Security	IC card + Biometric authentication/ Security gate/ Monitoring cameras/ Lockable rack with individual cylinder key
Network	Carrier neutral
Anti-flooding	Designed to prevent flooding up to A.P.* +2.5 m *Arakawa Peil
